

**Would you like to study Alpine ecosystems in Abisko during this spring?**

Alpine Ecosystem is a course run annually by the Climate Impacts Research Centre (Umeå University) in Abisko, Northern Sweden. It is a ten week course (10 points or 15 ECTS-credits) and starts 19<sup>th</sup> of April and runs until 16<sup>th</sup> of June. You will be staying in the beautiful area around Abisko during the entire period. This year we have room for about 5 more students on the course, so if you want to join us, please contact us before April 4<sup>th</sup>. Students from all universities are welcome.

Have a look at [www.emg.umu.se/circ/subpopsam.html](http://www.emg.umu.se/circ/subpopsam.html) if you want to get further information about the course, schedule or the students course evaluation from 2004.

If you are interested please contact [Bente.Graae@emg.umu.se](mailto:Bente.Graae@emg.umu.se), Tel: +46 (0)980 40009.
